Suit 500  
Washington, D.C. 20005

Re: "Statement from Patent Holder", Kineto Wireless, Inc.

Dear Mr. Goode,

Attached is a statement of Patent Holder being submitted by Kineto Wireless, Inc. ("Kineto") pursuant to Section 10.4 (Patents) of the ATIS Operating Procedures and Article 55 (Intellectual Property Rights Policy) of the 3GPP Working Procedures. Kineto requests that ATIS provide a copy of this Statement of Patent Holder to the Project Coordination Group (PCG) of 3GPP, which is responsible for maintaining a register of IPR declarations received by the Organizational Partners.

Sincerely,

A handwritten signature in black ink that reads "Marty Hernandez". The signature is written in a cursive style with a large, looping 'H' at the end.

Marty Hernandez  
Chief Financial Officer

## Statement from Patent Holder

### Patent Holder/Organization:

Legal Name Kineto Wireless, Inc. ("Kineto")

### Contact:

Name & Department Marty Hernandez, Chief Financial Officer  
Address Kineto Wireless, Inc.  
1601 McCarthy Blvd.  
Milpitas, CA 95035  
Tel. (408) 965-0212  
Fax. (408) 965-0273  
E-mail mdh@kineto.com

### Specifications/Recommendations

The 3<sup>rd</sup> Generation Partnership Project; Technical Specification Group GSM/EDGE Radio Access Network (referred to below as "3GPP GERAN")

- Generic Access to the A/Gb interface (referred to below as the "Generic Access to the A/Gb Interface" project of the 3GPP GERAN Group), including 3GPP TS 43.318, "3rd Generation Partnership Project; Technical Specification Group GSM/EDGE Radio Access Network; Generic access to the A/Gb interface; Stage 2" and 3GPP TS 44.318, "3rd Generation Partnership Project; Technical Specification Group GSM/EDGE Radio Access Network Generic Access (GA) to the A/Gb interface; Mobile GA interface layer 3 specification".
- Generic Access to the Iu interface (referred to below as the "Generic Access to the Iu Interface" project of the 3GPP GERAN Group), including the Work Item for GAN Enhancements of the 3GPP GERAN Group, which will specify modifications to 3GPP TS 43.318 and 3GPP TS 44.318 to support Iu mode Generic Access.

### Patents/Published Applications

The attached table provides a list of patents and published patent applications that are, or may be, considered to be essential to implement specifications resulting from the Generic Access to the A/Gb Interface project, and/or Generic Access to the Iu Interface project of the 3GPP GERAN Group including those identified above.

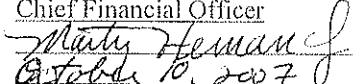

With respect to each of the above, Kineto has filed, and may continue to file, continuing applications (such as continuations, continuation-in-parts, and divisionals) and other applications, in the U.S. and internationally, that may not yet be published and that are, or may potentially be, considered to be essential to implement one or more of the above mentioned specifications. The claims, if any, that may be issued from patent applications are uncertain and the above specifications may be subject to change. Accordingly, no assurance is provided as to whether any particular patent or patent application is, or may be considered to be, essential. However, this Statement from Patent Holder is provided to draw attention to the possibility that compliance with the above specifications may require use of an invention covered by these or other patent rights of Kineto.

### Licensing Declaration

In case part(s) or all of any proposals contained in contribution submitted by Kineto are included in specifications adopted and published by 3GPP and ATIS as a standard for Generic Access to the A/Gb interface and/or as a standard for Generic Access to the Iu Interface (each, an "Approved Standard(s)"), and the included part(s) contain items that have been patented or for which patent applications have been filed and whose use would be required to implement the Approved Standard(s), Kineto is willing to negotiate licenses with other parties on fair, reasonable and non-discriminatory terms and conditions (under condition

of reciprocity). The foregoing licensing declaration does not apply to (a) any portions of products or systems the purpose or function of which is not required for compliance with the Approved Standard(s), or (b) enabling technologies that might be necessary to make or use a product but which are not set forth in the Approved Standard(s).

Re: Statement from Patent Holder by Kineto Wireless, Inc.  
Generic Access to the A/Gb interface;  
Technical Specification Group GSM/EDGE Radio Access Network;  
3rd Generation Partnership Project

Dear Mr. Goode,

Attached is a Statement of Patent Holder being submitted by Kineto Wireless, Inc. ("Kineto") pursuant to Section 10.4 (Patents) of the ATIS Operating Procedures and Article 55 (Intellectual Property Rights Policy) of the 3GPP Working Procedures. Kineto requests that ATIS provide a copy of this Statement of Patent Holder to the Project Coordination Group (PCG) of 3GPP, which is responsible for maintaining a register of IPR declarations received by the Organizational Partners.

Very Truly Yours,

Kineto Wireless, Inc.

Statement from Patent Holder by Kineto Wireless, Inc.

**Patent Holder/Organization:**

Legal Name Kineto Wireless, Inc.

**Contact:**

Name & Department Ms. Joie Lê, Director of IP/Associate General Counsel

Address Kineto Wireless, Inc.  
1601 McCarthy Blvd.  
Milpitas, CA 95035

**Specification/Recommendation**

Generic Access to the A/Gb interface, Technical Specification Group GSM/EDGE Radio Access Network, 3rd Generation Partnership Project.

**Patents/Published Applications**

Attached is a list of patents and published patent applications that are, or may potentially be, considered to be essential to implement the above specification for Generic Access to the A/Gb interface. Kineto Wireless, Inc. has filed, and may continue to file, continuations, continuations-in-part and other applications, in the U.S. and internationally, that may not yet be published and that are, or may potentially be, considered to be essential to implement the above specification for Generic Access to the A/Gb interface. The claims, if any, that may be issued from patent applications are uncertain and the above specification is subject to change. Accordingly, no assurance is provided as to whether any particular patent or patent application is, or may be considered to be, essential. However, attention is called to the possibility that compliance with the proposed specification may require use of an invention covered by these or other patent rights of Kineto Wireless, Inc.

**Licensing declaration**

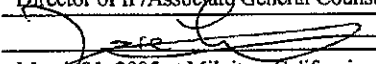

In case part(s) or all of any proposals contained in contributions submitted by Kineto Wireless, Inc. are included in specifications adopted and published as a standard for Generic Access to the A/Gb interface of a GSM/EDGE Radio Access Network by 3GPP and ATIS ("Approved Standard") and the included part(s) contain items that have been patented or for which patent applications have been filed and whose use would be required to implement the Approved Standard, Kineto Wireless, Inc. is willing to negotiate licenses with other parties on fair, reasonable and non-discriminatory terms and conditions (under condition of reciprocity). The foregoing licensing declaration does not apply to (a) any portions of products or systems the purpose or function of which is not required for compliance with the Approved Standard, or (b) enabling technologies that might be necessary to make or use a product but which are not set forth in the Approved Standard.
