RE: Letter of Assurance on behalf of QUALCOMM Incorporated for ATIS deliverables
transposed from 3GPP specifications
Contributions made to Wireless Technologies and Systems Committee (WTSC) Committee

Dear Sirs:

QUALCOMM has participated in the activities of 3GPP. Per the ATIS Operating Procedures, Version 4.0 dated January 3, 2006, there is no objection to the inclusion of patented technology into a standard and disclosure of such technology is encouraged. In accord, please note that QUALCOMM may have intellectual property underlying a contribution made through the Wireless Technologies and Systems Committee (WTSC) Committee for 3GPP specifications that, if adopted by ATIS, could be essential to the practice of the ATIS-developed National Standard ("ANS") or other ATIS deliverable.

This letter sets forth QUALCOMM's licensing commitment for the above-referenced contributions. QUALCOMM will make a license available, on the basis of applicant reciprocity, under reasonable terms and conditions that are demonstrably free of any unfair discrimination to applicants desiring to utilize the license for the purpose of implementing the transposed 3GPP- ATIS Deliverable.

Please confirm acceptance of this Letter of Assurance at your earliest convenience via return email to Stephanie F. Young, Senior Manager, IP Administration at syoung@qualcomm.com. If you require any additional information, do not hesitate to contact me directly at 858-651-6732 or via email at trousec@qualcomm.com.

Sincerely,

Thomas Rouse

RE: Letters of Assurance on behalf of QUALCOMM Incorporated for ATIS deliverables transposed from 3GPP specifications
Contributions made to Emergency Services Interconnection Forum (ESIF); Technologies and Systems Committee (PTSC);
Performance, Reliability and Quality of Service Committee (PRQC); and Wireless Technologies and Systems Committee (WTSC)

Dear Tom,

Thank you for your email. Our legal counsel has provided the following response to your question:

To the extent required, these declarations are intended to apply to all ATIS deliverables from these committees transposed from 3GPP specifications up to July 1, 2008.

If you have any questions or concerns, please contact Stephanie Young directly by email (syoung@qualcomm.com) or by telephone (858-658-4851). Thank you for your continued time and assistance.

Subject: RE: ATIS declarations question

Karyn:

In reviewing the patent assurance forms, I noted that they do not specifically address a particular deliverable, but rather the deliverables of WTSC, PRQC, ESIF and PTSC transposed from 3GPP specifications. I have a follow up question and was wondering if I should direct this to you or to Ms. Young.

Essentially, I need to find out whether these assurances are intended to apply to every ATIS deliverable from these committees transposed from 3GPP specifications or just to certain standards.

ATTN: Thomas Goode, ATIS General Counsel

Dear Tom,

We are preparing to submit an ATIS declaration to you by email. Could you let us know if we should also submit the original to you by regular mail? Also, should we fax, too?

Thanks.
