1 STANDARDS PROJECT

TITLE: Letter Indicating AT&T Will License INMD Algorithms for Which It Holds Patents

AUTHORS: R. C. Walborn

SOURCE: AT&T - Network Systems

CONTACT: Allen J. Mollica
Room 3B-534
101 Crawfords Corner Road
PO Box 3030
Holmdel, NJ 07733-3030
(908) 949-1292

DATE: September 21, 1992

DISTRIBUTION: T1M1.3 Analog SWG

ABSTRACT: This contribution indicates that AT&T will license any algorithms for the INMD which it holds patents for under reasonable terms and conditions.

NOTICE

This document has been prepared to assist the Standards Committee T1-Telecommunications. It is offered to the committee as a basis for discussion and is not a binding proposal on AT&T. The requirements presented in this document are subject to change in form and numerical value after more study. AT&T specifically reserves the right to add to, or amend, the statements contained herein.

August 3, 1992

To: Mr. R. L. Beebe, Chairman
ANSI T1M1.3 Standards Committee

Subject: Contributions to ANSI-T1 Standards Projects
(Specifically T1.221-1991 Standard)

To the extent that AT&T has existing patents or may in the future obtain patents which are essential to the referenced T1 standard, it is AT&T's policy that a license will be made available to any applicant. Such license will include reasonable terms and conditions that are demonstrably free of any unfair discrimination, and will provide that a similar grant under any licensee's patents within the scope of the license granted to licensee is made available upon request to AT&T.
