To Whom it May Concern:

Re: Patent Statement to dpANS T1.403-1998 for DS1 Metallic Interface, Network to Customer Installation standardization.

In compliance with ANSI patent policy, Applied Digital Access will license its patented technology that is applicable to the implementation of dpANS T1.403-1998, DS1 Metallic Interface standard, as it relates to the detection, generation and regeneration of AIS-CI, RAI-CI and SPRM signals. Such license will be made under reasonable terms and conditions that are demonstrably free of unfair discrimination.

Sincerely,

Paul Hartmann
Vice President
